

**Example Legal Agreement Portion:**

Storm County has entered into the following agreements with the Puddle Conservancy District, City of Waterville, Runoff College, and Rainfall Homeowners Association to implement the requirements of 327 IAC 15-13. The County will be responsible for:

- (1) distribution and promotion of the public informational materials developed by the Indiana Department of Environmental Management and Runoff College;
- (2) development and implementation of a public involvement program consistent with 327 IAC 15-13-13 within the designated urbanized area for which the County has jurisdiction;
- (3) development and implementation of an illicit discharge detection and elimination program consistent with 327 IAC 15-13-14 for the areas within the designated urbanized area for which the County has jurisdiction, and the jurisdictional areas served by the Puddle Conservancy District and Washout Census Defined Place;
- (4) development of a construction site run-off control program consistent with 327 IAC 15-13-15 applicable to all jurisdictional areas of the County and the entities listed in this agreement (implementation of this program is applicable only to the jurisdictional areas served by the County, Puddle Conservancy District, and Washout Census Defined Place);
- (5) development of a postconstruction site run-off control program for new development and redevelopment consistent with 327 IAC 15-13-16 applicable to all jurisdictional areas of the County and the entities listed in this agreement (implementation of this program is applicable only to the jurisdictional areas served by the County, Puddle Conservancy District, and Washout Census Defined Place); and
- (6) development and implementation of a pollution prevention and good housekeeping program for County operations consistent with 327 IAC 15-13-17 for the areas within the designated urbanized area for which the County has jurisdiction, and the jurisdictional areas served by the Puddle Conservancy District and Washout Census Defined Place.

The County will not be responsible for:

- (1) development of information materials;
- (2) development and implementation of a public involvement program in areas outside of the County's jurisdiction and designated urbanized area;
- (3) development and implementation of an illicit discharge detection and elimination program in areas outside of the County's jurisdiction, designated urbanized area, Puddle Conservancy District jurisdiction, and Washout Census Defined Place;
- (4) implementation of a construction site run-off control program in areas outside of the County's jurisdiction, Puddle Conservancy District jurisdiction, and Washout Census Defined Place;
- (5) implementation of a postconstruction site run-off control program for new development and redevelopment in areas outside of the County's jurisdiction, Puddle Conservancy District jurisdiction, and Washout Census Defined Place; and
- (6) development and implementation of a pollution prevention and good housekeeping program for County operations in areas outside of the County's jurisdiction, Puddle Conservancy District jurisdiction, and Washout Census Defined Place.

It is understood by all parties in this agreement that the responsibilities listed in this agreement may change, but the regulated entities applying for coverage under a single permit application will not be allowed to change permit coverage until a request is provided in accordance with 327 IAC 15-13 during the permit renewal timeframe. As responsibilities are altered, a new agreement can be written to reflect current conditions. We, by signing and dating below, agree to the above conditions.
